

## GEELONG BANK - APS330 Prudential Disclosure - Remuneration

(a) In accordance with the Society's constitution the aggregate remuneration of the Board of Directors must be approved by members at the Annual General Meeting.

The remuneration of the CEO is determined by the Board on the recommendation of the Board's Governance Committee. The Board and Governance Committee also review the remuneration of direct reports to the CEO and risk management employees on the recommendation of the CEO. The CEO has responsibility for the remuneration of all other employees, in consultation with the relevant supervisory employees.

The members of the Governance Committee during the year were:

- Dominic Raimondo - (Chairperson) Independent non-executive director
- Tim Boyd - (Vice Chairperson) Independent non-executive director
- Peter Bone - Independent non-executive director

The Society's remuneration policy is contained in its Corporate Governance Management System. The remuneration policy applies to Directors, the CEO, direct reports to the CEO and any other employee whose primary role is risk management.

While the remuneration policy has a broad coverage the minimum applicability of a policy under the prudential standard CPS 510 Governance is to employees classified as 'Senior Managers', of which Geelong Bank has 5 and 'Material Risk Takers', of which Geelong Bank has none, as follows:

Tye of Employee	Number
Senior Managers Managers including functions of operational, finance, compliance, marketing, member services and lending.	5

Remuneration disclosure in this report relates to these 5 employees.

(b) The remuneration policy was established to define the remuneration structure, policy and processes for the Board, senior employees and risk management employees of the Society. The objective is to ensure comparability with similar organisations and compliance with generally accepted governance standards, including prudential standard CPS 510 Governance. The policy is reviewed annually.

Senior employees and risk management employees are all are on fixed remuneration packages which are evaluated by the Governance Committee to ensure that risk management is not compromised by financial incentives.

The policy also seeks to ensure that quality employees are recruited and retained by remunerating them in accordance with their responsibilities, experience and industry standards.

(c) Information from applicable remuneration surveys is used by the Governance Committee to assist it in the determination of appropriate remuneration for senior employees and risk management employees.

The committee assesses the relevant remuneration on a case by case basis to ensure that remuneration reflects the skill and experience of the relevant employee to meet the Board's expectations and to respond to changes in the business as proposed in the Society's strategic plan.
