(ii) CREDIT RISK - LOANS

The classes of loans entered into by Ford Co-Operative Credit Society Limited are limited to loans; commitments and other non-market off-balance sheet exposures. Ford Co-Operative Credit Society Limited does not enter into debt securities; and over-the-counter derivatives.

Impairment details

The level of impaired loans by class of loan is set out below. In the note below -

- Carrying Value is the amount of the balance sheet gross of provision (net of deferred fees).
 Past due loans is the 'on balance sheet' loan balances which are behind in repayments past due by 90 days or more but not impaired.
 Impaired loans are the 'on balance sheet' loan balances which are at risk of not meeting all principle and interest repayments over time.
 Provision for impairment is the amount of the impairment provision allocated to the class of impaired loans.
 The losses in the period equate to the additional provisions set aside for impaired loans, and bad debts written off in excess of previous provision allowances.

The impaired loans are generally not secured against residential property. Some impaired loans are secured by bill of sale over motor vehicles or other assets of varying value. It is not practicable to determine the fair value all collateral as at the balance date due to the variety of assets and condition.

The analysis of the Ford Co-Operative Credit Society Limited's loans by class, is as follows in Table 4.

General Reserve for Credit Losses

This reserve is set aside to quantify the estimate for potential future losses in the loans and investments.

In addition to the provision for impairment, the board has recognised the need to make an allocation from retained earnings to ensure there is adequate protection for members against the

prospect that some members will experience loan repayment difficulties in the future, and the risk of loss on investments and other assets.

The reserve has been determined on the basis of the past experence with the loan delinquency and amounts written off.

The value of the reserve is amended to reflect the changes in economic conditions, and the relevant concentrations in specific regions and industries of employment within the loan book.
